

The Department of Civil & Environmental Engineering and
The Department of Mechanical Engineering at the
University of Houston
and the National Science Foundation

Summer Research Experience for Undergraduates in

Civil Infrastructure Engineering *Intelligent* May 30 – August 7, 2007

Program Dates : May 30 – August 7, 2007

Qualifications:

- US citizens or Permanent Residents
- Major in Engineering or Science in a US University
- Solid Civil or Mechanical Engineering background

Application Deadline: April 1, 2007 or until the positions are filled. Evaluation of applicants will start March 1.

Phone: 713.743.4250 Fax: 713.743.4260

E-mail: reu-ce@egr.uh.edu

This project is sponsored by NSF REU and the University of Houston .

- Thomas T.C. Hsu Structural Research Laboratory
- Smart Materials and Structures Laboratory
- Environmental and Water Resources Research Laboratory
- Center for Innovative Grouting Materials and Technology
- Hydraulic and Hydrodynamic Laboratory

Selected applicants will receive a grant through the summer months to pursue research with one of the faculty members of the Civil & Environmental or Mechanical Engineering Departments of the University of Houston.

The grant will include a stipend of \$3,000 and travel reimbursement if the applicant is coming from outside the Houston metro area. Room and board will also be provided on campus. The NSF REU grant mechanism is designed to promote the careers of students interested in pursuing graduate education. Participating students need to be enrolled in an accredited U.S. University and be U.S. citizens or permanent residents. Preference will be given to rising seniors, but juniors and sophomores will also be considered if they have a strong record.
